Wealth Financial Systems HCRIS Overview

- Web based
- Public Use Files (PUFs), quarterly release by CMS and not in a readily useable format
 - · HFS puts these files into a useable and readable format
 - HFS starts the upload of these PUFs as soon as they are released
 - HFS has created a database of over 1 million reports

Hospital – 398,000	SNF - 434,000	RHC- 33,000	HHA – 233,000
ESRD169,000	Hospice - 49,000	CMHC – 2,000	FQHCs - 20,000

Total – 1,339,000

- Missing Reports
 - HFS involvement in contacting CMS to research and add missing reports reported by our Users, has improved the completeness of the PUFs
- 2552-10 and 2552-96
 - Can recreate an MCRX and PDF file for 2552-10
 - Can extract any available data for both 2552-10 and 2552-96
 Snapshot Reports and other tools for both 2552-10 and 2552-96

Available Facility Reports

- Every report in the database will be shown here, one provider at a time
- Can filter by provider lis or type in any provider number

number When a new report is added, the file will be marked with 'New' in the File Flag column Can download recreated MCRX and PDF files from this page

**Older systems do not have option to download recreated MCPX and PDF files because these systems collected incomplete date. For example 2552-96 does not have B-1 statistics therefore a full cost report could not be recreated.

Health Financial Systems Advanced Search and Extract

- Broken down into 4 steps, this feature allows a search of the entire database to extract exactly what you want in several formats
 - · Step 1 Filter the database down to the providers the user is interested in
 - Step 2 Displays the results of the filtering in Step 1. Users can select providers individually, include an entire page of results or select all providers found
 - Step 3 What will be extracted. This step allows for Snapshot Reports, Worksheets, Custom Extracts (created by the user), MCRX cost report files and PDFs of the cost report to be extracted
 - Step 4 The extraction page. Name the extract and select the format the extract will be produced in .

Advanced Search and Extract - Step 1 Health Financial Systems

 Can use your own provider list to help filter the list • When a list is selected, the providers in this ist will be shown

We Health Financial Systems New HCRIS website

- Improved system speed
- Ability to extract multiple "Worksheet Series" at a time
- Ability to add multiple States and Cost Report Statuses in Advanced Search and Extract

26

- Developing the possibility to connect to user custom databases, instead of HCRIS DB
- Developing ability to read data directly from Cost Report files
- Developing ability to create custom snapshot reports
